

## Status Label Discography

Many of the albums issued on the above labels were reissued on the Status label in the 1965 time frame. Status may have been a label owned by Prestige or Prestige may have leased their material to the Status label.

The Status label was orange with black print. All Status albums were reissues of albums released by Prestige and most of them I can find were issued in 1965. Album covers were the same as the original cover with a Status sticker or printed with Status in place of the original name. Some albums that had Status covers had Prestige records inside. The number of the Status album was the same as the number on the original label. The following list is not comprehensive.

ST 6 - Red Garland Trio - Red Garland Trio [196?] Reissue of Moodsville MVLP 6.
